

GARAGE DOOR BRUSH PILE SEAL

FITTING INSTRUCTIONS

1. For up-and-over garage door, apply the brush pile seal to the edge of the door. For hinged doors apply seal to door frame as shown in diagram.
2. Make sure all the surfaces where the product is to be fixed are clean and free from dust, dirt, grease and loose paint. If necessary rub down with white spirit and dry off thoroughly.
3. Take the seal and peel off around 150mm of the backing paper. Working from the top of one side of the door or frame, apply the seal. Work downwards, smooth the seal to ensure the seal is properly fixed in place. Cut the seal to size when complete and repeat with the other sides of the door or frame.
